RE: International Traditional Karate Federation – EX544748

The above organization is not registered with our office and is not required to be registered. **The organization is incorporated with the Secretary of State as a mutual benefit corporation**, which generally does not require registration. The organization is not required to file any financial reports with our office and does not need to “renew” their exemption each year. They are shown in our database with a status of “Exempt-Active” and an exempt number of EX544748.

Sincerely,

Registry of Charitable Trusts
